\*The reporting period used to complete the ACCSC Graduation and Employment Chart is determined by taking the program's normal length of completion (including vacations and holidays rounded to the nearest whole number) in months multiplied by 150 percent and adding three (3) months for employment. From the Report Date of July 2018, ACCSC counts back the number of months (program length in months x 150% + 3 months) to establish the Ending Date of a reporting period. From the Ending Date, ACCSC counts back an additional twelve (12) months to determine the Beginning Date of the reporting period.
